

JUN 07 2004

Serial No. 10/054,257

Amend. In Resp. to Office Action of March 9, 2004

UTILITY PATENT

B&D No. TN -2239

Amendments to the Specification:

Please amend Paragraph 0040 as follows:

--Preferably, hole FFH is provided on the sliding fence 22 21, thus providing the user with moveable fixture F. Accordingly, the fence assembly 20 can be converted into a movable end stop, allowing the end user to move the workpiece W to a first desired position, then adjusting the sliding fence 22 to a second desired position, and moving the workpiece W to that second desired position.--
